SUBJECT INDEX

A
Abscess
  intracranial suppuration: clinical comparison of subdural empyemas and epidural abscesses, 191
  MR demonstration of brain abscess rupture into subarachnoid space and its possible implication in management, 197
  multiple cerebral abscesses because of *Listeria monocytogenes*, 320
  title comparison of primary and secondary spinal epidural abscesses, 28
Accessory nerve schwannoma in cisterna magna, 217
Acoustic neuroma, surgery combined with radiosurgery for, 283
Activities of daily living, impact of thalamic stimulation for essential tremor on, 479
Adrenocorticotropic hormone-producing pituitary adenomas, multiple-site venous sampling in treatment of, 292
Adverse drug reactions, delirium in elderly resulting from azithromycin therapy, 508
Amyloidoma of brachial plexus, 418
Anatomy
  common surgical pitfalls in the skull, 228
  lateral posterior fossa venous sinus relationships to surface landmarks, 392
Aneurysms
  angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
  evaluation of intra-aneurysmal blood flow by digital subtraction angiography, 310
  ISAT study: is coiling better than clipping?, 162
  neuropsychological evaluation after surgery in patients with unruptured cerebral aneurysms, 269
  rupture of middle cerebral artery aneurysm in neonate, 114
  spinal subdural hematoma: sequela of ruptured intracranial aneurysm?, 408
  surgery for posterior communicating artery aneurysms, 107
  vertebrobasilar artery dissection presenting with simultaneous subarachnoid hemorrhage and brain stem infarction, 18
Angiography
  angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
  chronic intraventricular encapsulated hematoma presenting unique radiological features, 23
  evaluation of intra-aneurysmal blood flow by digital subtraction angiography, 310
  intraventricular meningiomas, 491
  management of carotid artery injuries: Louisiana State University Shreveport experience, 184
  posterior fossa hemorrhage caused by dural arteriovenous fistula, 511
  rupture of middle cerebral artery aneurysm in neonate, 114
  vertebral artery complications in anterior approaches to cervical spine, 300
Anticoagulation, intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
Antifibrinolytic therapy, effect of short-term therapy on experimental vasospasm, 10
Arachnoid cyst, interhemispheric, in the elderly, 68
Azithromycin, delirium in elderly resulting from, 508

Cavernous malformations of brain stem, surgical management, 444
Cerebral vasospasm
angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
experimental, effect of short-term antifibrinolytic therapy, 10
Cerebrospinal fluid
lumbar peritoneal shunting with video-laparoscopic assistance, 473
revision rates following endoscopically vs. nonendoscopically placed ventricular shunt catheters, 375
Cervical spine
recurrent intradural cervical neurenteric cyst operated on using anterior approach, 34
simple cervical spine traction using a halo vest apparatus, 517
vertebral artery complications in anterior approaches to, 300
Chemotherapy, for pineal region tumors, 250
Chloroma, intracranial, in hypereosinophilic myelofibrosis, 55
Chordoid glioma, third ventricular, 424
Choroid plexus papilloma, pineal region lesion masquerading as, 124
Cisterna magna, schwannoma of spinal accessory nerve in, 217
Clinical trials
intermittent pneumatic compression devices, plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
ISAT study: is coiling better than clipping?, 162
Cognitive impairment
delirium in elderly resulting from azithromycin therapy, 508
effects of IC-IC bypass surgery on, in patients with hemodynamic cerebral ischemia, 455
neuropsychological evaluation after surgery in patients with unruptured cerebral aneurysms, 269
Coiling procedures
angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
ISAT study: is coiling better than clipping?, 162
Complications
delirium in elderly resulting from azithromycin therapy, 508
intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
spinal subdural hematoma: sequela of ruptured intracranial aneurysm?, 408
vertebral artery complications in anterior approaches to cervical spine, 300
Computed tomography
congenital cavernous angioma of temporal bone, 120
interhemispheric arachnoid cyst in the elderly, 68
intracranial chloroma in hypereosinophilic myelofibrosis, 55
intracranial suppuration: clinical comparison of subdural empyemas and epidural abscesses, 191
ischemic brain damage in cases of acute subdural hematomas, 464
meningeal menalocytoma of brain and oculodermal melanocytosis, 200
rupture of middle cerebral artery aneurysm in neonate, 114
successful aqueductal plasty and stenting for tectal plate tumor after failed third ventriculostomy, 58
treatment of pineal region tumors, 250
vertebrobasilar artery dissection presenting with simultaneous subarachnoid hemorrhage and brain stem infarction, 18
Congenital cavernous angioma of temporal bone, 120
Corticospinal tract, visualization of the eloquent motor system by integration of MEG, functional, and anisotropic diffusion-weighted MRI in functional neuronavigation, 353
Cranial nerves
demonstration of neurovascular compression in trigeminal neuralgia and hemifacial spasm with MRI, 93
percutaneous trigeminal ganglion balloon compression for treatment of trigeminal neuralgia—part I: pressure recordings, 63
schwannoma of spinal accessory nerve in cisterna magna, 217
Craniotomy
intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing, 363
supraorbital key-hole, 223
Cushing disease, multiple-site venous sampling in treatment of adrenocorticotropic hormone-producing pituitary adenomas, 292
Cysts
interhemispheric arachnoid cyst in the elderly, 68
microsurgical excision of symptomatic sacral perineurial cysts, 101
pathogenesis of intraparenchymal epidermoid cyst in brain, 211
recurrent intradural cervical neurenteric cyst operated on using anterior approach, 34

D

Deep brain stimulation, impact of thalamic stimulation on activities of daily living for essential tremor, 479
Delirium in elderly resulting from azithromycin therapy, 508
Devices and equipment
intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
simple cervical spine traction using a halo vest apparatus, 517
Diaphragm pacing, phrenic nerve stimulation with spinal cord stimulator, 128
Dural arteriovenous fistula, posterior fossa hemorrhage caused by, 511

Duraplasty, microsurgical excision of symptomatic sacral perineurial cysts, 101

Pineal region tumors
  lesion masquerading choroid plexus papilloma, 124
  principles of treatment, 250
Pituitary tumors
  growth potential of prolactinomas in men vs. women, 386
  multiple-site venous sampling in treatment of adrenocorticotropic hormone-producing pituitary adenomas, 292
Postapoplectic monochorea, posteroventral pallidotomy in, 486
Posterior communicating artery aneurysms, 107
Posterior fossa
  hemorrhage caused by dural arteriovenous fistula, 511
  lateral posterior fossa venous sinus relationships to surface landmarks, 392
Practice patterns in the U.S., 75–ed, 521–ed
Prognosis, effects on prognosis of surgical treatment of hypertensive putaminal hematomas through transsylvian transinsular approach, 176
Prolactinoma, growth potential in men vs. women, 386
Pseudoaneurysm, vertebral artery complications in anterior approaches to cervical spine, 300

R

Radiation therapy
  meningeal hemangiopericytomas, 47
  pineal region tumors, 250
Radiosurgery
  combined with surgery for large acoustic neuromas, 283
  meningeal hemangiopericytomas, 47
Readers' comments, 338–le
  the World Federation of Neurological Surgeons Scale for subarachnoid haemorrhage, 236–le
Research, 80–ed
Research news and notes, 5, 85, 145, 241, 343, 441

S

Sacral perineurial cysts, microsurgical excision of symptomatic cysts, 101
Schwannoma of spinal accessory nerve in cisterna magna, 217
Shunt procedures
  lumbar peritoneal shunting with video-laparoscopic assistance, 473
  revision rates following endoscopically vs. nonendoscopically placed ventricular shunt catheters, 375
Skull base
  common surgical pitfalls in the skull, 228
  natural history of untreated skull base meningiomas, 87
  primary epithelioid hemangioendothelioma originating in lower petroclival region, 429
Spinal cord
  phrenic nerve stimulation for diaphragm pacing with spinal cord stimulator, 128
  segmental spinal cord hypoplasia and meningocele with preservation of medullary function, 504
Spinal epidural abscess, primary vs. secondary, 28
Spinal subdural hematoma, sequela of ruptured intracranial aneurysm?, 408
Stereotactic biopsy, MRI-guided, in diagnosis of glioma, 277
Striatal hemorrhagic infarction, posteroventral pallidotomy in medically intractable postapoplectic monochorea, 486
Stroke, effects on prognosis of surgical treatment of hypertensive putaminal hematomas through transsylvian transinsular approach, 176
Subarachnoid hemorrhage
  effect of short-term antifibrinolytic therapy on experimental vasospasm, 10
  ISAT study: is coiling better than clipping?, 162
  spinal subdural hematoma: sequela of ruptured intracranial aneurysm?, 408
  vertebrobasilar artery dissection presenting with simultaneous brain stem infarction and, 18
  the World Federation of Neurological Surgeons Scale for, 236–le
Subarachnoid space, MR demonstration of brain abscess rupture into subarachnoid space and its possible implication in management, 197
Subdural empyema, intracranial suppuration: clinical comparison of epidural abscess and, 191
Subdural hematoma
  chronic and subacute, modified technique to treat, 329
  ischemic brain damage in cases of acute subdural hematomas, 464
  spinal: sequela of ruptured intracranial aneurysm?, 408
Superoxide dismutase, lecithinized, effects on neuronal cell loss in CA3 hippocampus after traumatic brain injury in rats, 156
Supraorbital key-hole craniotomy, 223
Surgical Neurology
  the beginning, 8–ed

editorial policy, 79
editor's note, 78
list of billionaires, 522–ed
30th anniversary year, 1–ed
Surgical technique
angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
combining MEG and MRI with neuronavigation for treatment of an epileptiform spike focus in precentral region, 40
common surgical pitfalls in the skull, 228
effects on prognosis of surgical treatment of hypertensive putaminal hematomas through transsylvian transinsular approach, 176
ISAT study: is coiling better than clipping?, 162
microsurgical excision of symptomatic sacral perineurial cysts, 101
modified technique to treat chronic and subacute subdural hematoma, 329
percutaneous trigeminal ganglion balloon compression for treatment of trigeminal neuralgia—part I: pressure recordings, 63
phrenic nerve stimulation for diaphragm pacing with spinal cord stimulator, 128
recurrent intradural cervical neurenteric cyst operated on using anterior approach, 34
simple cervical spine traction using a halo vest apparatus, 517
successful aqueductal plasty and stenting for tectal plate tumor after failed third ventriculostomy, 58
supraorbital key-hole craniotomy, 223
surgery for posterior communicating artery aneurysms, 107
treatment of pineal region tumors, 250

T
Tectal glioma, successful aqueductal plasty and stenting for tectal plate tumor after failed third ventriculostomy, 58
Temporal bone, congenital cavernous angioma of, 120
Thalamic stimulation for essential tremor, impact on activities of daily living, 479
Third ventricle
chordoid glioma, 424
intraventricular meningiomas, 491
successful aqueductal plasty and stenting for tectal plate tumor after failure of third ventriculostomy, 58
Thromboembolism, intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
Traction, simple cervical spine traction using a halo vest apparatus, 517
Tranexamic acid, effect of short-term antifibrinolytic therapy on experimental vasospasm, 10
Trauma
effects of lecithinized superoxide dismutase on neuronal cell loss in CA3 hippocampus after traumatic brain injury in rats, 156
management of carotid artery injuries: Louisiana State University Shreveport experience, 184
therapeutic mechanism and clinical effect of mild hypothermia in patients with severe head injury, 381
Tremor, impact of thalamic stimulation on activities of daily living for, 479
Trigeminal neuralgia
demonstration of neurovascular compression in trigeminal neuralgia and hemifacial spasm with MRI, 93
percutaneous trigeminal ganglion balloon compression for treatment of trigeminal neuralgia—part I: pressure recordings, 63

U
Ultrasonography, congenital cavernous angioma of temporal bone, 120

V
Vasculature
angioplasty and coiling of ruptured aneurysm with symptomatic vasospasm, 413
effect of short-term antifibrinolytic therapy on experimental vasospasm, 10
epithelioid hemangioendothelioma originating in lower petroclival region, 429
evaluation of intra-aneurysmal blood flow by digital subtraction angiography, 310
intermittent pneumatic compression devices plus dalteparin vs. intermittent pneumatic compression devices plus heparin for prevention of venous thromboembolism in patients undergoing craniotomy, 363
ISAT study: is coiling better than clipping?, 162
management of carotid artery injuries: Louisiana State University Shreveport experience, 184
neuropsychological evaluation after surgery in patients with unruptured cerebral aneurysms, 269
posterior fossa hemorrhage caused by dural arteriovenous fistula, 511
rupture of middle cerebral artery aneurysm in neonate, 114
surgery for posterior communicating artery aneurysms, 107
surgical management of brain-stem cavernous malformations, 444
vertebral artery complications in anterior approaches to cervical spine, 300
vertebrobasilar artery dissection presenting with simultaneous subarachnoid hemorrhage and brain stem infarction, 18
Venous sinuses, lateral posterior fossa venous sinus relationships to surface landmarks, 392
Ventricular shunt catheters, revision rates following endoscopic vs. nonendoscopic placement of, 375
Vertebral artery
complications in anterior approaches to cervical spine, 300
vertebrobasilar artery dissection presenting with simultaneous subarachnoid hemorrhage and brain stem infarction, 18
Vestibular schwannoma, surgery combined with radiosurgery for, 283

W
